

MARCIN MICHALSKI

F R O N T - E N D D E V E L O P E R

PROFILE

Passionate about programming and web development, I've built my foundation in the logistics arena as an inventory controller, troubleshooter, and team lead. These roles equipped me with skills ranging from process optimization and collaborative leadership to effective problem-solving.

Now, I'm enthusiastically channeling this passion into creating web apps and continuously advancing my coding expertise.

RECENT PROJECTS

www.michalski.pro

09.2023 | HTML, CSS, JavaScript

Personal website to showcase my skills, recent projects and contact information.

artificialai.xyz

03.2023 | HTML, CSS, JavaScript

Project based on design delivered in Figma for a group associated with the crypto industry.

<https://michalski-marcin.github.io/website-aai/>

TabMemo

09.2023 | HTML, CSS, JavaScript

Chrome extension for quick access to most used websites in one place without using chrome's tab bar.

It was built for personal use but the current plan is to expand with more features and improve the current ones.
